Participate in a five-day practical workshop. Work in small teams led by a Team Leader. Visit two local services and use the PASSING evaluation tool. Explore, in depth, the life circumstances of service recipients and their needs. Identify the extent to which the service meets the needs of the people, using SRV principles and strategies. Use both qualitative and quantitative scoring.

*Learn a framework that helps give meaning and depth!*

This workshop explores the social role valorisation framework with regard to people who are marginalised.

It helps to make the most of contemporary opportunities.

Appreciate the dynamics of social devaluation and its impacts on marginalised people. Examine how getting valued roles can contribute to changed societal perceptions and strengthen the likelihood that the person with a devalued status will get a better life. Completion of this event allows entry to the 5-day PASSING practicum.
